

MegaStar has now established its base in Tripoli staffed by both Russian and Libyan employees and is interested in receiving enquiries/tenders for contracts including any of the following:

- educational, sports & leisure facilities

- hotels, retail, recreational and business centers;

- logistics, warehousing and transport terminals of any degree of complexity;

- industrial facilities: plants, factories, production facilities and enterprises;

- engineering support of all types of facilities, including internal and external utilities

including engineering structures, power, oil & gas supply lines, pipework, heating mains, etc.;

- railway, transport lines with access ways and motor roads and bridges of all

categories;

- seaports and airports with infrastructure.

- real estate

-residential facilities, town house communities, apartment buildings, villa

communities)

-roads, motorways & landscaping

MegaStar are able to undertake projects of any value and we would be pleased to provide a demonstration of our capabilities either at your offices or at our new office at As-Sarraj Area.
